ORDER FOR ADJOURNMENT

Mr. CORNYN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent

that it stand adjourned under the previous order, following the remarks of the Senator from Florida, Mr. NELSON.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Florida is recognized.

GULF OF MEXICO OIL DRILLING MORATORIUM

Mr. NELSON. Mr. President, there has been a longstanding question of whether there would be drilling for oil in the eastern Gulf of Mexico off of the State of Florida.

This had been settled in law 10 years ago. Then, my colleague Senator Mel Martinez and I passed a portion of legislation called GOMESA. That portion of the legislation put the drilling off of Florida in the eastern Gulf—everything east of a north-south line called the Military Mission Line, which is a line running south of approximately Fort Walton Beach—everything east of that is off limits in law to any kind of oil drilling activity, along with the remainder of the coast of Florida; 125 miles from the coast going all the way over to Pensacola and to the Perdido River, which is the Alabama-Florida line.

The reasons for this are many, but not the least of which is called the Military Mission Line. That area of the Gulf off of Florida is the largest testing and training area for the United States military in the world. Compared to other testing ranges, such as the Nevada Test Site—it dwarfs that site. As we can see, from north to south, we have ranges as far as 300 miles from east to west. For example, off of Naples, FL, all the way west to the Military Mission Line is approximately 250 miles. That has been needed by our U.S. military because of the testing and training.

It has been doubted over the years as the relentless pursuit of oil drilling by the oil industry has tried to erode into that, and that is why, in a bipartisan way, Senator Martinez and I put in law for the period of years through 2022, from when we passed this back in 2006, it off limits.

The question is, What is coming afterward? Well, of course if it is up to the Department of Defense, there will be no oil drilling activity. That is what I wanted to bring to the attention of the Senate today.

Two previous Secretaries of Defense in Republican administrations, including Secretary Rumsfeld, have written letters to state the policy that any oil-related activity in that testing and training range would be incompatible with the mission of the testing and training of the U.S. military.

The reason I am bringing this to the attention of the Senate today is that a letter signed by the Acting Under Secretary of Defense for Personnel and Readiness has just come into my possession. A gentleman named Mr. A.M. Kurta writes:
